

**T-Mobile USA is proposing to modify an existing wireless telecommunications facility on a building located at 45 Broad Street, Cumberland, RI 02864. The modification consists of replacing three existing antennas with three new antennas and replacing three existing RRUs with three new RRUs at a center height of 80 feet above ground level within fiberglass columns on the existing 114-foot steeple. Any interested party wishing to submit comments regarding the potential effects the proposed facility may have on any historic property may do so by sending such comments to: Project 6119001696–KR, EBI Consulting, 21 B Street, Burlington, MA 01803, or via telephone at (413) 281-4650.**
